## Salts for Kidneys Better Than Drugs

If your Back hurts or Bladder bothers, drink lots of water.

When your kidneys hurt and your back aches, get relief by drinking a lot of water. This will help to flush out the kidneys and keep them in good condition. The function of the kidneys is to filter the blood. In 24 hours they strain out 100 gallons of blood and waste, so we can readily understand the importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacy about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for the next few days and your kidneys may then be in good condition. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to cleanse and stimulate clogged kidneys; also to neutralize the acids in the urine so it is no longer a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

## NORWICH POLICE CATCH INTO THIEVES

Two youths who are out on parole from a reform school in Massachusetts were arrested in this city Thursday night about 9 o'clock as they were driving through Franklin square with an automobile which they had stolen in New London about 7:30.

Officer William Ryan spotted the car as the young fellows came through the square and he held them up and took them to police headquarters with the assistance of Officer Michael Carroll and Patrick Murphy.

The two youths were taken to police headquarters until Sergeant Gaffney, Officer John Cavanaugh, and Courtney came from New London. An Officer Cavanaugh's namesake was with the prisoners back to New London. Officer Courtney drove the runabout back to New London.

There is also a second theft charge against them as they had provided for their comfort on the ride by stealing a blanket from another automobile. The blanket was found in the Ford.

All the officers on the night beats were at once notified to keep a lookout for the car with the result that the thieves and the machine were soon caught.

The young fellows gave their names as Paul Blackford, 19, of Providence, and Herbert Potter, 17, of Fall River. Blackford is white but Potter is colored. Both said they were on parole from the Lyman school in Massachusetts. Blackford was driving the car, freely admitted they had taken it in New London and said they were going on their way to Providence where his mother lives.
